

# Workshop: Numerical Modeling of Rock and Soil Reinforcement for Mining and Civil Applications

**Date:** Sunday, 11<sup>th</sup> September

**Time:** 10:30 am – 16:00 (4 pm)

*(workshop closure before Symposium Welcome Buffet)*

**Venue:** Luleå University of Technology, Luleå  
*(room to be announced later)*

## Course content

- Basic theory
- Examples from Itasca softwares in continuum & discontinuum
- Examples from real projects

## Registering for the course

Course fee: 900 SEK. The fee includes participation, course material and examples, lunch and coffee.

Register early as space is limited!

## Prerequisites

Previous use or knowledge of any of Itasca's software codes.

## Who should attend?

This training course is designed for users with some experience in numerical modeling who may wish to learn more about rock and soil reinforcement.

## What to bring?

Course attendees will be required to bring their own personal laptops.
